

## Ballot to the Future: Civic Research & Critical Thinking

### Part 1: Reflection

What do you value? What issues are important to you? What issues are important to people you care about? To your community?

### Part 2: Be Ballot Ready: Out of State

Below are non-partisan resources you can use to research the candidates and amendments on your ballot. If candidates have not filled out the resource, you can reach out to them and request that they fill it out. You can also check individual campaign websites, however, remember that campaign websites are partisan sources; use your resource evaluation skills when looking at these resources!

**Part 3: Futures-Thinking**

What are the long-term impacts of what you hope to support?

What are you supporting?	What is the potential short-term impact?	What is the potential long-term impact?
