

e-waste

green office tip of the month

Did you know?

- The average American household owns 24 electronic devices
- Electronic waste (e-waste) is responsible for 70% of the toxic metals in our landfills
- In 2012 FSU recycled over **29 tons** of electronics

Dispose of e-waste properly!

- ◇ Cell phones, ink cartridges, and batteries can be disposed of for recycling in the e-waste bin at the campus FSU Bookstore
- ◇ Larger e-waste, such as computers, TVs, and large ink cartridges can be collected by FSU Solid Waste and Recycling
 - ◇ To request special recycling, call 644-2424 or visit facilities.fsu.edu
- ◇ Tallahassee household e-waste can be collected at the curb on your regularly scheduled pick-up day. Visit talgov.com for more info.
